FEATURES

A primer on explosives costs, Paddock, Robert C., March . . . 42
A revealing look at roof air rib fall accident statistics, Pappas, Deno M., September . . . 47
A safe way to clean diesel exhaust, Waytulonis, R.W., Wagner, W.S., August . . . 40
Assessing plant performance, Laurila, M.J., September . . . 34
Black Lung Benefits Program could zap operators—again, Bagge, Carl, March . . . 22
Blast casting requires fresh assessment of methods, Pilshaw, S.R., August . . . 32
Blast casting to raise productivity, Pilshaw, S.R., July . . . 30
Business strategies for adapting to changing markets, Malhotra, Ramesh, January . . . 34
Busy legislative year ahead for coal, Bagge, Carl, January . . . 18
Canadian coal survives changing climates, Zabunurov, Steven A., January . . . 28
Caring for hydraulic hose and couplings, Wacker, Ron, March . . . 46
Clean coal—the environmentalist's dilemma, Bagge, Carl, June . . . 23
Coal Prep 87: Paths to cleaner coal, Morris, Stephanie D., April . . . 28
Coal convention to stress technology and competition, Duncan, Denise Terry, April . . . 46
Coal mining and coal burning turn up in '87, Sprouls, Mark W., January . . . 22
Coal should be encouraged, not hampered, Moore, Arch A., June . . . 18
Coal stock index reaches record high, Sprouls, Mark W., January . . . 31
Coal stocks lag behind market, Sprouls, Mark W., July . . . 36
Company president advocates hard work and dedication, Jackson, Dan, October . . . 24
Creating change from the bottom up, Horton, Thomas R., November . . . 19
Crisis management for coal mining, Britton, Scott, December . . . 30
Cut costs and downtime by maintaining hydraulic systems, Morris, Stephanie D., November . . . 22
Demystifying Japanese success (or: Are the Japanese really ten feet tall?), Zabunurov, Steven A., October . . . 48
Deserado gains edge through computer monitoring, Jackson, Dan, December . . . 24
Design guidelines for multiple seam mining, Part I, Peng, S.S.; Hsiung, S.M., September . . . 42
Design guidelines for multiple-seam mining, Part II, Peng, S.S.; Hsiung, S.M., October . . . 48
Dewatering blastholes cuts explosives costs, Pilshaw, S.R., November . . . 43
Dragline excavation methods for US Lignite mines, Fish, Roger W., Hrebar, Matthew J., December . . . 41
El Cerrejon: The mine keeps growing, Zabunurov, Steven A., July . . . 24
Evaluating bump control techniques through convergence monitoring, Campoli, A.A., July . . . 42
Farmer takes his methods to mining, A, Zabunurov, Steven A., October . . . 28
Fundamentals and benefits of hardfacing, Patton, Donald M., November . . . 28
Getting better or getting by?, Zabunurov, Steven A., January . . . 7
Guidelines for choosing face ventilation systems, Divers, E.F.; Volkwein, J.C., October . . . 46
Helping nature help itself, Zabunurov, Steven A., May . . . 42
How to design high-powered shots for low vibration casting, Collins, Bobby, March . . . 38
How to optimize blast casting, Pilshaw, S.R., September . . . 36
Improving dust and methane control, Coca, Organiska; Jankowski, October . . . 51
Improving prep plant safety, Laurila, M.J., October . . . 44
In striving to do better, Congress mulls what's well, Zabunurov, Steven A., July . . . 7
Integrity—the essential ingredient of the CEO, Horton, Thomas R., October . . . 61
Investing in global competitiveness, Horton, Thomas R., July . . . 62
LONGWALL USA spotlights productivity and safety, Sprouls, Mark, Duncan, Denise, May . . . 26
Leading a cause worth marching for, Duncan, Denise Terry, October . . . 36
Letter from an American miner in Chile, Zabunurov, Steven A., April . . . 7
Longwall Census '87, Sprouls, Mark W., February . . . 26
Longwall automation grows, Peng, Syd S., May . . . 48
Microcomputer analyzes cost of mining violations, Britton, Scott G., P.E., October . . . 32
Middle managers—an endangered species, Horton, Thomas, January . . . 61
Mine management bargaining options for 1987-88 UMW negotiations, Lawson, Joseph W.R., II, October . . . 34
Mining engineer stresses practical experience, Jackson, Dan, October . . . 25
Misfired blastholes cost plenty, Konya, C.J.; Lukovic, S.S., July . . . 33
Moving coal off the mountain, Zabunurov, Steven A., November . . . 33
New technology vs. new debt, Zabunurov, Steven A., March . . . 9
Obel Mountain Coal thrives on high-tech, Zabunurov, Steven A., February . . . 44
On-line rapid coal analysis offers processing and marketing opportunities, Zumberge, James F., November . . . 37
P-A-R Spreadsheet: Understanding your mine data, fast, Britton, Scott G., June . . . 62
Perceptions and reality, Bagge, Carl, July . . . 20
Preventing spontaneous combustion after mine closing, Lewrick, Greg, November . . . 40
Pump maintenance program cuts downtime, Johnson, R.W., September . . . 27
Reagan's budget: The bigger the number, the number you

get, Adam, Bruce Ormsby, February . . . 9
Recent court decisions, Aston, Lee R., February . . . 52
Recent court decisions, Aston, R. Lee, June . . . 66
Reclamation—the coal industry's success story, NCA, September . . . 18
Reclamationist develops roots of the science, Francor, Angela, October . . . 31
Rocklick Plant designed for flexibility, Mason, Richard H., October . . . 40
Room-and-pillar mine design in multiple seams, Matetic, Chedak and Galek, December . . . 36
Some blasthole priming methods can double your costs, Konya, C.J.; Lukovic, S.S., August . . . 36
State of the Mining Industry, The, Born, Allen, February . . . 56
Thank the union for the changes, Adam, Bruce Ormsby, September . . . 7
The 1987 Canadian preparation plant census, Adam, Bruce Ormsby; Zabunurov, Steve, September . . . 31
The 1987 Preparation Plant Census, Adam, Bruce Ormsby, June . . . 27
The French nuclear threat, could it happen here?, Zabunurov, Steven A., May . . . 9
The fuel use act "classic" compromise, Bagge, Carl, May . . . 22
To Congress on the acid rain issue: Act on knowledge—not on the habit of acting, Adam, Bruce Ormsby, October . . . 16
Transportation reform gains momentum, Bagge, Carl, April . . . 26
Tribute to Eugene Guccione, A, Adam, Bruce Ormsby, November . . . 7
Upgrading a prep plant to keep pace with increased production, Laughton, J.F.; Vinesky, J.M., September . . . 22
Utilities argue against coal capability, Bagge, Carl, February . . . 22
Ventilated drum reduces dust 50%, Divers, E.F.; Kelly, Jonathon, December . . . 34
Western coal conservation: Unique problems, unique solutions, Olson, Maunders, and Burdick, May . . . 39
Wetland reclamation of the AMAX Ayrshire slurry impoundment, Nawrot, Warburton, and Wistam, May . . . 44
What are you afraid of?, Adam, Bruce Ormsby, July . . . 7
What is your most significant competitor?, Zabunurov, Steven A., August . . . 9
What's behind that nagging back ache?, Apts, David W., February . . . 50
Why productivity at Cottonwood keeps getting better and better, Jackson, Dan, July . . . 38
Winning coal, and people, Zabunurov, Steven A., October . . . 26

Eliminating pollutants/RAPRENOs, March	34
Five state governors appointed to the National Coal Council, July	15
Great Plains plant still on block, April	14
Indians sign fossil-energy related agreement with DoE, July	13
Innovative Control Technology Advisory Panel established by DoE, July	14
Innovative coal-burning technique, July	14
Magnetohydrodynamic (MHD) power concept to be tested by DoE, August	19
Nuclear power sets new record, April	11
Ohio test of Limestone Injection Multistage Burner approved, July	15
Reagan won't scale back acid rain funding, January	15
US and China to study "greenhouse effect," October	14
US increases dependence on imported oil, May	14
DoI (Department of Interior), Coal mining and coal burning turn up in '87, January	22
Coal valuation regulation proposals provoke controversy, July	15
Dol considering new BLM policy, March	14
Dol proposal may lead to less royalty fees, February	16
Dol to see cuts in budget proposal, February	18
Environmental groups fight Dol, Hodel, August	17
Government departments to swap lands, July	15
Illinois program upheld in court, September	15
Interior agrees with agreement on leasing, April	15
Interior changes leasing procedures, January	15
Interior drafts wildcat sanctions, October	12
Interior programs face cuts, February	16
Dol (Department of Labor), Black lung disability benefits liberalized, August	19
Disabling injuries down, but costs per injury up, August	14
EIA (Energy Information Administration) 86 coal tonnage rises five percent, June	9
Coal mining and coal burning turn up in '87, January	22
Coal's net generation share drops slightly, March	12
Energy production falls slightly, January	12
EPA (Environmental Protection Agency), Court dismisses Sierra Club suit, October	9
EPA awards funds to inventory pollutants, April	18
EPA comments on hazardous wastes, January	14
EPA expands bubble concept, January	13
EPA lax on updating air quality standards, March	15
EPA lays plans to control "leaking," June	9
ERT to conduct acid rain study, November	16
National Governors Association blasts EPA, October	14
NOx reduction, March	34
Provisions of HR 2497 would be costly to utility customers, October	14
Six states to sue EPA, June	17
Thomas supports Reagan on acid rain, March	15
Western lands clean according to study, March	16
GAO (General Accounting Office), EPA lax on updating air quality standards, March	15
GAO calls for more R&D, March	15
Inspectors not citing violations, March	14
Wildlife sanctuary water quality criteria should be set, according to GAO, October	15
ICC (Interstate Commerce Commission), A shipper's right to buy or subsidize an unprofitable rail line is clarified, October	15
Coalition forms to change ICC handling of captive shippers, March	14
ICC rail decision victory for both sides, February	18
KC Southern eyes Southern Pacific RR, February	11
Railroads clear merger obstacles, January	15
Reagan wants to eliminate ICC, March	14
Senator appalled by ICC's failure to protect captive rail shippers, August	19
MSHA (Mine Safety and Health Administration), Coal mine deaths decline in 1987, October	12
Fatalities fall 48%; production jumps 48.5%, July	9
MSHA fines UP&L and Energy for Wilberg fire, June	11
MSHA issues self-rescuer rule, September	9
MSHA proposes new explosive rules, January	14
MSHA requires training for self-contained self-rescuers, August	19
MSHA states show productivity rise, September	11
Salt Institute proposes reforming accident reporting systems, September	13
Self-rescuers broken before they are used, January	15
Supervisors must complete safety courses, October	13
Total injuries drop nearly 39%, March	14
UMW opposes Strunk nomination to head MSHA, September	13
NBS (National Bureau of Standards), Researchers explore thin film thermocouples for diesel engines, September	14
OSMRE (Office of Surface Mining), Coal firm to explore in North Carolina, February	15
Illinois excels in reclamation, April	15
OSM begins collecting AVS data, March	14
OSM computerized AVS cost noted, February	16
OSM hiring additional inspectors, February	16
OSM outlines reining initiatives, March	14
OSM requests comments on buffers around historic zones, February	16
OSM suspends 57 regulations, February	16
OSMRE issues new regulations, June	9
US District Court rules that OSM has jurisdiction on Indian reservations, August	19
TVA (Tennessee Valley Authority), DoE threatens to slash payments to TVA, August	15
Utilities buy more, September	15
